ROBIN KINYUA

JUNIOR DATA ANALYST | ECONOMICS & STATISTICS GRADUATE

+254 768 492 062 | rknyua@gmail.com | Kenya | github.com/robyke | linkedin.com/in/robinkinyua

PROFESSIONAL SUMMARY

Economics and Statistics graduate with hands-on experience in Python, SQL, pandas, exploratory data analysis, statistical testing, dashboarding and monitoring & evaluation. Built end-to-end analytics projects that clean, analyse and communicate business data, including a fintech capstone covering 8,000 customers and 70,824 valid transactions. Comfortable translating data into concise findings and recommendations for stakeholders.

TECHNICAL SKILLS

Analytics & Programming	Python, pandas, NumPy, SciPy, SQL, SQLite
Visualisation & Reporting	Matplotlib, Looker Studio, Excel, stakeholder reporting
Workflow & Data Collection	Google Colab, Git, GitHub, KoboToolbox, data cleaning, EDA, cohort analysis

DATA ANALYTICS PROJECTS

PesaPap Customer Growth, Retention and Value Analytics *2026*

End-to-End Fintech Analytics Capstone | Python, SQL, pandas, SciPy, SQLite, Looker Studio

- Generated, cleaned and analysed 70,824 valid mobile-money transactions across 8,000 synthetic customers, measuring KES 111.18M in transaction value and a 94.02% ever-active customer rate.
- Built reusable cleaning, SQL KPI analysis, customer segmentation, cohort retention and a Mann-Whitney U test; identified High Value customers as 68.95% of transaction value and Referral as the top acquisition channel by total value at about KES 29.03M.
- Created a stakeholder-ready Looker Studio dashboard and executive reporting pack with actionable acquisition, retention and reactivation recommendations.

Duka Electronics H1 Sales Exploration *2026*

Sales Analytics | Python, pandas, Matplotlib

- Explored 1,000 electronics orders representing KES 71.79M in revenue, engineering revenue, month, weekday, weekend and price-band features for analysis.
- Identified Nairobi as the highest-revenue branch at KES 26.11M and April as the strongest month at KES 13.52M, 24.0% above the lowest month.
- Ranked products by revenue and units sold, showing Laptops generated KES 41.54M while Tablets led unit volume with 691 units.

County Rainfall and Planting Advisory *2026*

Data Cleaning & Advisory Analysis | Python, NumPy

- Cleaned and analysed 60 monthly rainfall observations across five counties, handling missing values and producing county-level annual totals, wettest months and dry-month counts.
- Used vectorised NumPy analysis to identify planting windows and exported a structured rainfall summary for decision support.

WORK EXPERIENCE

Lewa Wildlife Conservancy - Grants and Impact Department *2023*

Monitoring and Evaluation Attachee

- Supported data collection, analysis and reporting to inform monitoring, evaluation and strategic decision-making.
- Designed data-collection questionnaires using KoboToolbox and assisted departments in tracking progress against work plans.
- Collaborated with cross-functional teams to address implementation challenges in a conservation environment.

EDUCATION & TRAINING

Kirinyaga University *2020-2024*

Bachelor of Economics and Statistics

- Built a foundation in economic theory, statistics, quantitative analysis, research methods and data interpretation.

PLP Data Analytics Programme *2026*

Data Analytics Training

- Completed practical projects in Python, NumPy, pandas, SQL, data cleaning, exploratory analysis, statistical testing, dashboards, Git/GitHub and stakeholder reporting.

HP LIFE *2025*

Introduction to Cybersecurity Awareness | AI for Beginners

- Developed foundational knowledge of cybersecurity threats, secure data practices, artificial intelligence, data in AI systems and responsible technology use.

Learnio Academy *2026-Present*

Graphic Design & Digital Marketing

- Training in visual communication, branding, content creation, digital campaigns and audience engagement.

CORE STRENGTHS

Analytical problem-solving	Data interpretation	Research & data collection
Attention to detail	Stakeholder communication	Cross-functional teamwork
